ORDERING INFORMATION

Equipment manufacturers make changes to their machines from time to time, and they also change and supersede part numbers. Downtime is critical, and by following a few helpful guidelines, we can save you time and money by correctly identifying the replacement part numbers needed.

EQUIPMENT DIAGRAMS

Our catalog contains equipment diagrams identifying replacement part numbers for various manufacturers' engines, mowers, 2 and 4-cycle equipment and snow equipment. **In these diagrams, the part numbers are located as follows:**

JThomas Parts Part Number

	PART NO.	DESCRIPTION	REPLACES	PRICE EACH
1	N134	5/16"-18 Lock Nut Flange	12990007	$0.65
2	WS-344	25 Micron Hydro Oil Filter	34490002	$7.18
3	JT-5431	Solenoid	53490009	$9.35

OEM Part Number

Before placing your order, please verify the part from your piece of equipment matches the correct OEM part number found listed in our diagrams. When they do match, we are confident you will receive the correct replacement item.

SNOW PLOW DIAGRAMS
